

Fill Out Your Surveys!

The Union Leadership and Improvement Project group needs your input on what improvement project you would like to see implemented first. Is there something that has worked or not worked in the past? Has there been a successful project in another community that you think would work here? Your feedback will not only give us ideas and help prioritize our efforts, but will show community support which is needed to be eligible for many funding sources (e.g. public and private grants). Please take 5 minutes and fill out the survey that was delivered to your residence on Sunday afternoon. Volunteers will be picking up the surveys this Wednesday from 7:00 p.m. to 8:00 p.m. All survey responses are confidential and the compiled results will be presented at a town hall type meeting sponsored by our group.

This census form is actually one of the shortest and easiest in history - it is estimated that it will only take 10 minutes for the average household to complete the questionnaire. Additionally, all census information remains confidential.
